# High-Performance Return Grille Filter

## CLEANER AIR WITH LESS EFFORT

**Longer life, lower maintenance, and cleaner indoor air:** The High-Performance Return Grille Filter from Honeywell filters dust and reduces pollen, mold spores, bacteria, and other allergens with high-efficiency filtration equivalent to typical four-inch filters in a one-inch return grille space.

\*Based on initial efficiency analysis of new filters tested at 3-10 micron particles at 295 feet per minute of airflow.

	MERV Rating	FC40R RETURN GRILLE FILTER	STANDARD 1" FILTER
Particle Size	MERV Rating	10	1-4
	0.3-1 micron	30%	0-5%
	1-3 micron	61%	5-15%
	3-10 micron	86%	10-20%

### Superior Performance

Captures up to 85% of particles passing through the HVAC system. Up to 10 times more effective than standard one-inch filters.

### Longer Lasting

Three times the life of a standard one-inch filter. Only replace every 6-12 months, versus monthly or quarterly.

### Perfect Fit

Fits most one-inch ceiling or wall mount return grilles with 18 sizes to choose from.

### Increases Efficiency

Filtered air puts less strain on your heating and cooling equipment, allowing it to run more efficiently.

## TYPICAL HOUSEHOLD PARTICLES

FC40R air filters capture 15 times more 0.3-micron particles than typical one-inch fiberglass filters.
