

RZ AIRflow™

AIR PURIFYING FILTER FOR PTAC UNITS

USE FOR HOTELS | SENIOR LIVING COMMUNITIES | APARTMENTS | OFFICES

Did You Know? Indoor Air Pollutants Can Be 2-5x Higher Than Outdoors

That's why RZ Industries® has expanded our expertise in filtration to develop the first ever patent-pending air purifying filter compatible with PTAC units.

Introducing the Patent-Pending RZ AIRflow

Top-Quality
Air Purification

Cost Effective
Solution

Set It &
Forget It

Improve the Air Quality Everywhere PTAC Units are Found

Hotels

Apartments

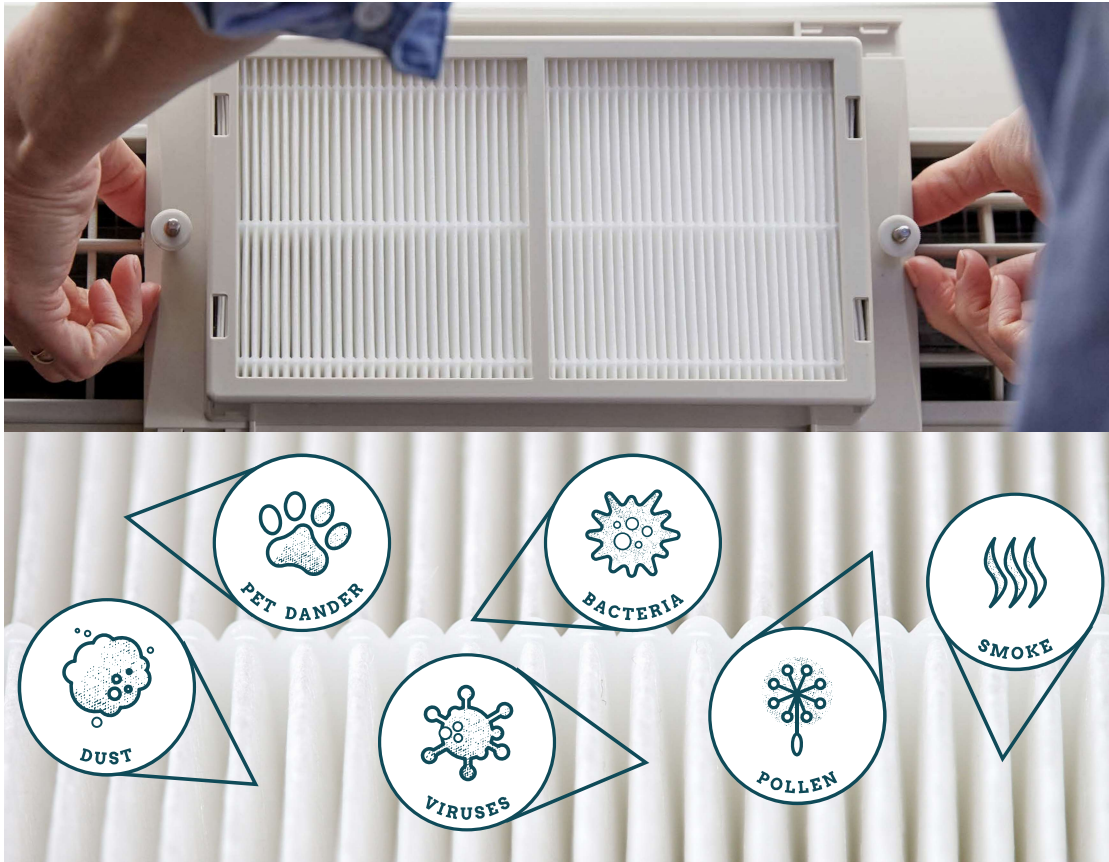

Senior Living Communities

Offices

Hospitals

Top-Quality Air Purification HEPA Filter

HEPA filtration cleans the air of common allergens to PM2.5 and viruses and bacteria to .3 microns.

Top-Quality Air Purification

Activated Carbon

Reduces odors within
20 minutes on average.

Top-Quality Air Purification

The Power of the
PTAC & RZ AIRFlow

Purifies the air inside
the room as well as the
air pulled in through the
PTAC unit from outside.

Outperforms most
premium standalone
air purifiers.

Cost Effective Solution

Costs \$.24 a Day

Requires zero added power beyond the PTAC unit to run.

Filters last on average up to 6 months of continuous use.

Replacement filters available at an affordable price.

< SCAN TO SEE 1 MINUTE INSTALLATION

Set It & Forget It

Simple Installation

Install within minutes.

No action needed for up to
6 months of continued use.

Set It & Forget It

PTAC Unit Impact

Requires zero added power beyond the PTAC unit to run.

No added noise beyond the PTAC unit.

Minimal airflow reduction to PTAC airflow (5%) which allows the unit to maintain room temperature settings.

Compact & Portable

Consumer Product

Weighing just 1 pound, the RZ AIRflow folds into three small pieces easily packed in a durable travel carrying case.
