

# Flow-Max® HP Series Cartridges

100% polypropylene construction with efficiencies to 99.98%.

## High efficiency pleated cartridges

Flow-Max HP series cartridges are cost efficient, disposable filter elements for a wide range of applications. Constructed entirely of polypropylene, they are ideally suited for critical filtration, including high purity water and aggressive chemicals.

## Applications

- High purity water
- Pre-filtration for RO
- Plating solutions
- Inks
- Bottled water
- Rinse water for electronics
- Edible oils
- Traps for DI resin

Initial pressure drop per 10" cartridge
